

# RIVER ARGENTO PRO

Kit micro-filtration for drinking water, LED tap included

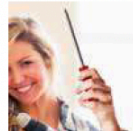

### KIT FILTRATION + TAP WITH LED FOR FINISHED CARTRIDGE WARNING.

At home, with River/Pro you always have good water available to you, for the environment and for your savings, it improves organoleptic characteristics of your mains water. It eliminates unpleasant taste and odour and all the undesirable substances such as Chlorine and its derivatives, Trihalomethane, Atrazine, pesticides, fertilisers and herbicides. Low cost at a price that is accessible to all, the kit provides drinking water at a cost up to 1000 times less than bottled water. Easy installation, it is sufficient to place the cartridge under the sink and connect it to the supplied tap. Space saver and without electrical connection, with its elegant design and linear stile, the tap supplied with the kit adapts to any type of kitchen. Completely made in stainless steel it **signals through the luminous LED** that the cartridge is finished. The kit guarantees maximum safety this way. You can replace the filter. Maintenance consists in replacing the exhausted filter.

It signals that the cartridge is finished when the blue light on the tap turns off and the red one turns on.
